Topic: Intermediate Permitting Workshop

Date and Time: *NEW!* **Tuesday, February 27th: 12:30 pm - 4:30 pm**

Length of Time: 4 hours - (Includes time for audience questions.)

TITLE: Intermediate Permitting Workshop

This workshop will explore floodplain permitting at an intermediate level. It will be the first of two Intermediate Permitting trainings. This will be an interactive hands-on workshop. Attendees will be given two joint permit scenarios and go step-by-step through the application process in an interactive format that includes project pre-application meetings, permit review, insufficiency, public notice, approval / denial, certificates of completion, correspondence, and documentation. Mapping tools and information will be incorporated into the application review.

PRE-Requisite: This will be an intermediate level workshop so attendees need to have at least 2 years FPA experience or attended a Basic Floodplain Training or Floodplain Bootcamp sessions. There is a Basic Training on the morning of February 27th which satisfies the pre-requisite.

- 1) Trainers will provide scenarios.
- 2) Attendees will locate flood hazard data and information
- 3) Attendees will schedule a pre application meeting
- 4) Attendees will go through the permit review checklist

All Materials will be provided for the workshop

Since handouts will be provided, PLEASE REGISTER No later than Monday, February 26th

NEW INFO! REGISTRATION REQUIRED -

If you plan to attend the Basic Floodplain Training (morning of Feb. 27th) OR you will attend BOTH sessions, register at:
<https://www.eventbrite.com/e/dnrc-floodplain-basic-training-pre-amfm-conference-tickets-813467873307>
