I'M BACK

Who am I

What I do

How I got here

Why do I do this

The Bureau

Floodplain Community Assistance

Dam Safety

Floodplain Mapping

Floodplain Technical Assistance

Board of Water Well Contractors

The Bureau

Why are these programs grouped together?

Risk

Risk Identification

Risk Management

Risk Mitigation

Risk

We talk about the 100-year floodplain

We mean

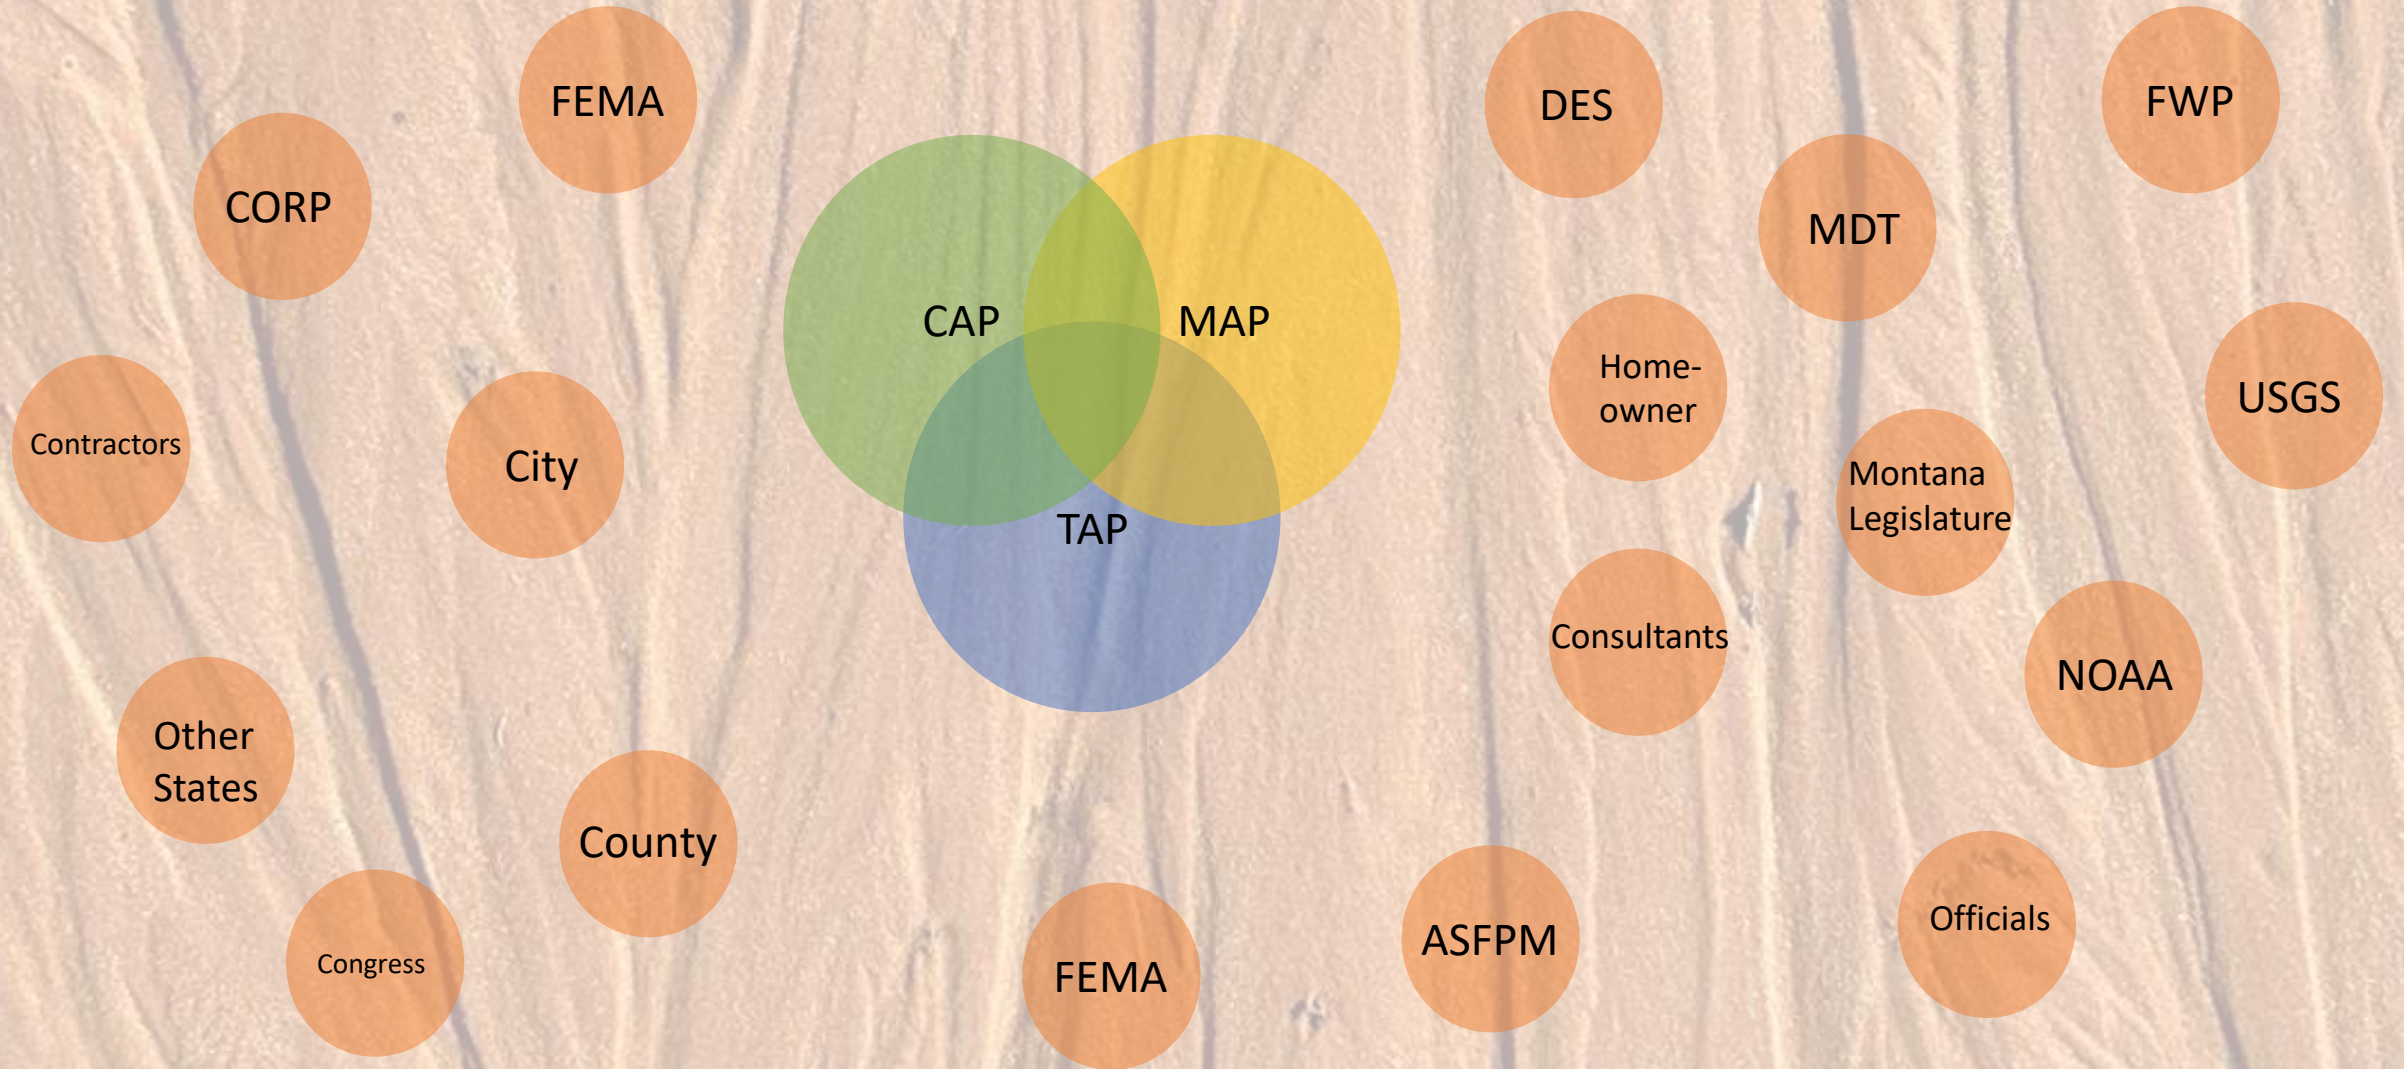

The area that has a 1% chance of flooding each year

3% chance of hitting a home run each
time at bat

1% Chance of drawing the Elkhorns 380
bull elk tag each year

0.6% Chance of being audited by the IRS

The Floodplain Program(s)

My Job

Find the best people to work with the floodplain community

Make sure people have the tools and training they need to be successful

Always looking for ways to improve the programs

Where are we going?

Continue our current trajectory

Find new ways to engage, teach and learn

Understand, manage, and mitigate risk

Build the framework to support each other

Importance of Being Here

Being proactive vs. reactive

Learning as a group creates consistency

Sharing the wins and the losses

Questions

Final Thoughts

Everyone here has a crucial role in keeping the citizens of Montana safe and preparing our communities for the future

There will be some hard days along the way but know this community is here to support you.
